

Covid-19 has changed our lives and our healthcare environment. We can provide your Nation a Tribal focused population health tool that will help you:

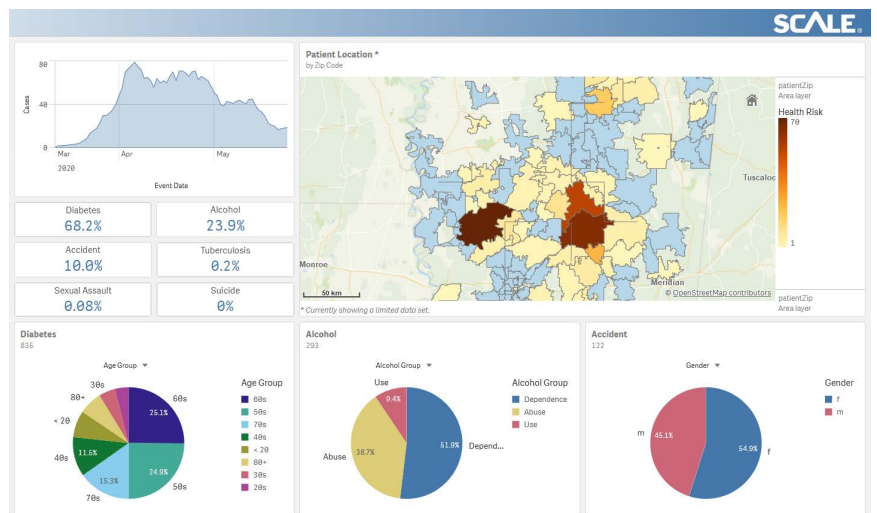

- Quickly identify high-risk members
- Monitor diseases in your population by zip code
- Provide data for emergency response support

This tool provides a number of features that will make your team more efficient in population health management and in care delivery.

# SCALE<sup>®</sup>

## Population Health

- Proactive Health Management
- Care Management
- Extensive Data Analysis
- Evidence Based Outcomes
- Tribal Specific KPIs
